Dearman # 1

100' N of SWSE SW 15 34 S 16 W

Near Beryl

Area generally in place. Another well 150-200' NW. Cased only (abt 8") & abt 100' deep. Can see water in bottom. This well is under a rusty, square 5 gal bucket & needs to be plugged from bottom to top also. Had "High Temp" sign & 2x4

Jones 1-8 6/12/90

Sec 8 34 S 13 W

Near Beryl well is completely open with

water in bottom. 2nd well has a windmill dated (1981.)

Gate valve is locked but has been screwed off.
