

**BLM Well TCH #74-2
Well History Summary**

74-2 Well History

	Depth
9/26/1983 Well Completed	3.9" liner from 306' - 1164' 1.5" tubing from 1164' - 2990' split with string shot @ 2326'
12/20/1983 Run Static Pressure/Temperature survey to	2990'
3/12/1984 Run Static Pressure/Temperature survey to	2981'
12/27/1990 Run Static Kuster Pressure/Temperature survey to	2900'
1/2/1991 Run 1" Sinker Bar to	2900'
Run Static Kuster Pressure/Temperature survey to	2900'
4/9/1991 Run Pressure/Temperature survey to	2900'
9/14/1993 Run Pressure/Temperature survey to	1700'
12/7/1994 Pulled cap tubing and found a hole at 1200'	
Reinstalled tubing	
Run Static PT survey to	2950'
10/18/1995 Run Static Temperature surevey to	2980'
3/1/1999 Run Static Pressure/Temperature survey to	2980'
6/20/2000 Run Static Bottomhole PT survey to	2980'
12/11/2001 Run Static Bottomhole PT survey to	2988'
10/12/2005 Run Static Bottomhole PT survey to	2993'
11/16/2006 Static Bottomhole PT Survey	2982'
12/26/2007 Static Bottomhole PT Survey	2908'
3/19/2009 Static Bottomhole PT Survey	2989'
10/26/2010 Static Bottomhole PT Survey	2989'
11/10/2011 Static Bottomhole PT Survey	2996'
10/2/2013 Static Bottomhole PT Survey	2998'

Summary

0 gauge rings
18 wire line surveys
1 Sinker Bar
acid stimulation
0 Work-overs
Coil tubing clean-outs
Nitrogen Lifts
1 capillary tubing strings
