GEOTHERMAL SUNDRY NOTICE
BLM LEASE CA-11403
Amendment to GEP-065-93-02

California Energy Company proposes to amend GEP-065-93-02 for the 48-11 corehole pad site, to allow for construction of a 60' x 50' water pump pad and turn around area for vehicles. The CECI water truck is unable to traverse the steep, winding access road in order to provide water necessary for drilling operations. The proposed pad is located adjacent to the existing corehole access road and within the area surveyed by Far Western Anthropological Resource Group, thus there will be no significant impact to any sensitive cultural resources. In addition, the proposed pad site was inspected 09/23/93 by Jony Homer, CECI Compliance Tech, and Mr. Ken Bonin of the Geothermal Program Office. Based upon their evaluation, there will be no impact to any sensitive biological resources.
